

RAINCHECK

Rain Barrel Maintenance

DRAIN

Empty your barrel after each rain so that it is ready to fill up the next time.

CLEAN

Remove leaves & debris from around your barrel and filter monthly or as needed.

MONITOR

Check for any cracks or defects. Make sure to contact us with any issues.

WINTERIZE

Drain & disconnect your barrel no later than 10/31. Complete instructions for winterizing can be found on www.raincheckbuffalo.org
